“CHIROPRACTIC BOOTCAMP” AGENDA

December 3, 2011

Saturday: 8:00 am to 1:30 pm

December 4, 2011

Sunday: 8:00 am to 1:30 pm

- 1 Cost Effectiveness Research and Guidelines:** Awareness translates into better outcomes and referrals. This hour will make you proud to be a doctor of chiropractic! Discussion of the cost-effectiveness of chiropractic care. Creating an army of research warriors. Learn how to improve patient outcomes and awareness to strengthen your practice.
- 2 ODG: Understanding the truth about ODG and other guidelines:** This hour will be filled with surprises! Learn how to better manage your work comp and personal injury patients and make it harder for bad consultants to deny your requests for care.
- 3 Rehab and Nutrition:** Learn the meat and potatoes of improving patient care using the combination of rehab and nutrition.
- 4 Functional Medicine:** Learn how to incorporate functional neurological testing and other strategies into your practice to advance patient health.
- 5 Transitioning to Wellness:** Learn the science behind chiropractic-managed ongoing care, how to effectively transition patients to wellness, and/or how chiropractic chronic pain management can save the healthcare system money!
- 6 Acute and chronic care guidelines:** Learn about the newest guidelines from the Council on Chiropractic Guidelines and Practice Parameters (CCGPP) that can enhance your practice. This hour will include many positive revelations!!
- 7 Medical and Attorney Referrals:** Given the strength of research, it is no longer acceptable to withhold the recommendation of spinal manipulation. Learn how to educate and improve the odds that medical physicians and attorneys, will PROACTIVELY make a referral for proper care.
- 8 New Technologies:** Light and Therapy Research. Research on the use of light technologies in the treatment of injuries/wounds. Introducing WARP technology.
- 9 Evidence-based Report of Findings:** How to conduct an effective evidence-based report of findings so patients understand and comply with treatment recommendations in an effort to improve outcomes.
- 10 Safety of Chiropractic-Research Awareness/Exam and treatment procedures:** Reviewing the latest literature regarding spinal manipulation safety, including proper examination and informed consent.
- 11 Research-update:** Research: Literature related to chronic pain, diagnostic accuracy, manipulation, maintenance care, soft tissue healing that can be used to support your care recommendations.
- 12 Neurology of Pain/Testimony:** Making court and in office depositions fun and easy! Contemporary explanations of soft tissue healing and neurological importance of spinal manipulation for acute and chronic pain patients.
